Drama Club of Vivekananda College, Thakurpukur has been one of the most cherished, celebrated and vibrant centres of our college which provides a space for students to breathe fresh air, expand their imagination and vent their expressions. For the past few years, Drama club has taken up several activities such as inter-departmental and inter-college drama competition which involved students as well as faculty members. Besides drama competition and theatrical performances, Drama club has organized year-long programmes such as, theatre-watching with students, workshops, short-term courses, interactive sessions with eminent theatre personalities, seminars, webinars etc. Because of these, Drama club has become one of the most popular cells in our college within few years and it has been an inspiration for several other colleges too. The COVID pandemic prevailed in the year 2020-2021, so the club had to withhold all offline activities. In spite of that, students and members were enthusiastic enough to form a very active team and expressed their willingness to learn theatre art and kept on interacting in regular basis which also helped the members to tide over the depressive situation.
